

FLOW Repository

Use FlowRepository to access, review, download, deposit, annotate, share and analyze flow cytometry datasets.

www.flowrepository.org

Find out more at CYTO 2012:

- **Sunday 24 June:** State of the Art Lectures – Computational Analysis of High-Dimensional Data
- **Tuesday 26 June:** Parallel 8 – Cytometry Technology: Cytometry Software and Informatics
- **Wednesday 27 June:** Workshop 13 – Publishing MIFlowCyt Compliant Data to ISAC's FlowRepository.org for *Cytometry A* and Other Journals

FlowRepository is supported by Cytometry Part A, and is freely available thanks to support from the International Society for Advancement of Cytometry, the Wallace H. Coulter Foundation and from the donation of source code for the underlying technological platform from Cytobank Incorporated.
